

Basic Computer Study Courses

CCC

ADCA

DCA

CCC – Computer Concept course

CCC is a foundational computer literacy program that teaches key computer literacy skills, such as word processing, spreadsheets, and internet usage.

ADCA – Advance Diploma in Computer Application

ADCA course is conducted by various popular universities that cover numerous topics from the **fields of computers**, operating systems, the internet, *hardware maintenance, office automation, programming languages*, etc.

DCA – Diploma in Computer Application

DCA is a **six-month computer-based diploma** or course. The course is intended to provide learners with basic, realistic and technological details pertaining to programming tools and applications which are used in our *everyday lives*.

HAVE SOME FUN

H₂O is water and do you know what is the complete formula of A^2+B^2 , I think I have learned this on class 6th.

Did You know **Formatting is referring to styling** and arrangement of text Font?
